# Hamilton

**Welcome to our Platinum Range - designed exclusively for the hotel and contract market. Proudly made in Britain, our new range of mattresses, divan beds, headboards, sofa beds & guest beds all comply with UK fire regulations.**

The Hamilton mattress looks as good as it feels, with plush fillings including polyester, Pure New Wool and silk and offers exceptional value for money for 1,200 pocket springs. Notable features on this pocket sprung model are flag stitched turning handles - making it considerably easier for housekeeping staff to turn the mattress - and breather vents to assist in keeping the mattress well-ventilated in all seasons. The mattress is completed with tufting; not only creating a beautiful decorative finish to the mattress, but also creating high loft cushions of super-soft comfort.

A quality Belgian Damask fabric with a fresh new design completes this mattress. Having been designed specifically for the hotel and contract market, the durable and breathable anti-bed bug treated fabric will stand the test of time. EULAN® SPA 01 treatment has been applied to the mattress ticking to offer high-performant bug protection and is Ökotex-Standard 100 approved. This treatment is odourless and guaranteed skin-safe.
