DREAM FAUX SUEDE

Composition	Surface: 100% Polyester
	Base: 90% Polyester, 10% Cotton
Width	140cms (55") approx
Usage	General Contract use

PLEASE NOTE

If bobbling or piling occurs on this fabric, this is not a problem and will not have any detrimental effect on the wearability of the fabric. Removal by a 'de-fuzzer' is the most effective method and returns fabric to its original appearance.

Pile fabrics, by their very nature, do often have a tendency to pressure mark. This is a natural characteristic of this type of fine fabric. It does not in any way detract from the wearing ability of this quality fabric.

WASHING INSTRUCTIONS

Professional cleaning recommended.

FIRE RETARDANCY

This fabric conforms to BS 5852 FR3 CRIB Ignition Source 5 when used in conjunction with CMHR 35 Foam.

Wholesale Beds

AGUA NOVA - CLARET

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - BURGUNDY

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - DAMSON

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - GRAPE

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - DILL

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

AGUA NOVA - FENNEL

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - OATMEAL

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - LATTE

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - TAUPE

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - SAGE

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - NUTMEG

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - WEDGEWOOD

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - ROYAL

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - ORION

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - BLUEBELL

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - VANILLA

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - DOVE

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - RAVEN

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - EBONY

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - BURNT ORANGE

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - RUSSET

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - RASPBERRY

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA - POPPY

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

AGUA NOVA has been designed for use in demanding environments; the Nova collection is a high performance fabric that provides comfort and luxury.

For headboard pricing in AGUA NOVA, please refer to Band C.

AGUA NOVA

Composition	100% treated Polyester
Width	145cms (57") approx
Usage	Severe Contract Use
Flame Retardant	This fabric conforms to BS 5852 CRIB Ignition Source 5

	Fabric Specifications
Flame retardant	Upholstery: BS7176 Crib 5, IMO Resolution A652 (16), Cal 117, M2
Anti-bacterial/Anti-fungal	Will not support microbial or fungal growth including Salmonella, E Coli and MRSA
Waterproof	Water or oil based solutions will not penetrate or absorb through the fabric; Hydrostatic Head BS3424 > 1 metre
Breathable	Moisture vapour permeable
Martindale abrasion	Severe contract grade > 100,000
Tear strength	BS4303 Severe Contract Grade
Breaking strength	BS2576 Severe Contract Grade
Urea resistance	BS4324 part 19. No deterioration after 24 hours, 5.5ph, 8.8ph Urea soak
Stain resistant	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice
Composition	100% Polyester

Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean micro fibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (10,000 ppm of available chlorine) or Mineral Spirit.

Can be steam cleaned in situ.

Remove all stains immediately before they set.

MODA NATURAL LOOK

Total Pile & Composition	100% Polyester
Width	140cms (55") approx
Usage	Severe contract upholstery

PLEASE NOTE

If bobbling or pilling occurs on this fabric, this is not a problem and will not have any detrimental effect on the wearability of the fabric. Removal by a 'de-fuzzer' is the most effective method and returns fabric to its original appearance. Pile fabrics, by their nature, do often have a tendency to pressure mark. This is a natural characteristic of this type of fine fabric. It does not in any way detract from the wearing ability of this quality fabric. We would recommend that customers are made aware of this at point of sale.

WASHING INSTRUCTIONS

Professional clean in-situ..

STAIN REMOVAL

To remove the most common stains: Clean as soon as possible. Absorb wet stains. Scrape off solids (don't go against the grain). Wash with an ordinary detergent and water.

Stain	Treatment	Post-treatment
